

DATA SHEET

ARMOR SEAL POURABLE CRACK FILLER #A-400R

- PRODUCT:** Armor Seal #A-400 Cold Pour Crack Filler for asphalt surfaces
- DESCRIPTION:** Armor Seal #A-400 is a smooth flowing, self leveling crack filler. It will not 'pin hole' under normal use, and has excellent shape retention and memory.
- PREPARATION:** The pavement surface must be dry and free from all loose material, dirt and dust. Oil contaminated cracks should be treated with Armor Seal Oil Spot Primer.
- APPLICATION:** A-400 comes ready to use; just mix well and apply with any standard crack filler application pouring cone. Allow to completely cure before sealing.
- COVERAGE:** Coverage per gallon depends on crack depth and width. For estimating purposes, one gallon of A-400 will fill approximately 80 L/F per gallon for 1/2" wide by 1/2" deep asphalt cracks.
- PACKAGING:** 5 Gallon Pails
55 Gallon Drums
